

EXCELLA'S AGILE EXPERTISE

Our experts embody the Agile mindset by **being Agile, not just doing Agile.**

Our industry-recognized Agile experts make Excella unique in the community. They are passionate thinkers, big dreamers, and problem-solvers. Our team takes a non-prescriptive and adaptive approach to Agile because we believe there is no one-size-fits-all technique or method that works for every organization, team, or individual. So, how do our experts make us the top Agile partner?

THOUGHT LEADERSHIP

In 2018, Excellians spoke at **MORE THAN 28 CONFERENCES**

Our thought leaders made us the Agile partner with the most sessions at Agile2017, Agile2018, and Agile2019

Excella's proven expertise and successful approach is grounded in continuous improvement. Effective Agile organizations measure value, foster collaboration, and remove barriers to business objectives regularly and consistently. We do more than just teach Agile and Scrum—we put everything in a business context so there's a clear link between classroom learning and tangible business improvement.
