

Webinar Guide:

Harnessing GenAI for Mission Success

***Instructions:** Use this sheet to write down your thoughts as you watch “Harnessing GenAI for Mission Success”. The questions listed below are to help you organize your ideas for when you are ready to adopt GenAI at your organization.*

1. Many organizations often struggle to implement new technologies. Teams face blockers like low adoption, lack of buy-in, or fear of change. **What are some roadblocks or challenges you face when trying to adopt new technology?**

2. Organizations are more likely to succeed in adopting new technology when it’s in service of a mission or business objective. **What are some of your goals for adopting new technology?**

3. Governance, Risk, and Compliance (GRC) are often viewed as blockers to change. **What words or phrases come to your mind when you think of GRC at your organization?**

4. GRC policies are enablers to change, helping organizations mitigate risk to protect itself, its stakeholders, and its employees as they adopt new technology. **What comes to mind now when you think about GRC? How has your view of GRC changed?**
